NOTICE OF HEARING ON AMENDMENT
OF FACILITY OPERATING LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, (the Act) and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities", Part 51, "Licensing and Regulatory Policy and Procedures for Environmental Protection", and Part 2, "Rules of Practice", notice is hereby given that a hearing will be held before an Atomic and Safety Licensing Board (Board) to consider the application of Northern States Power Company (the licensee) for an amendment to Provisional Operating License No. DPR-22 which currently authorizes Northern States Power Company to possess, use and operate the Monticello Nuclear Generating Plant (the facility) located in Wright County, Minnesota at power levels up to 1670 megawatts (thermal). The proposed amendment would allow operation of the facility utilizing a Prompt Relief

Trip (PRT) system which provides for a predetermined number of safety/relief valves to be actuated promptly following a turbine or generator trip to minimize peak pressure and fuel thermal effects which could result from pressurization type abnormal operational transients, in accordance with the licensee's application for amendment dated January 23, 1974, as supplemented.

The hearing which will be scheduled to begin in the vicinity of the site of the Monticello facility, will be conducted by an Atomic Safety and Licensing Board which has been designated by the Chairman of the Atomic Safety and Licensing Board Panel. The Board consists of Dr. Walter H. Jordan and Dr. Richard F. Cole, Members, and Robert M. Lazo, Esq., Chairman.
