Dear Mr Boyd:

MONTICELLO NUCLEAR GENERATING PLANT E-5979
NEPA Environmental Review

Your letter of March 7 tabulated information required for a gaseous and liquid effluent analysis that will be part of the environmental review for the Monticello Plant.

We will proceed to develop this information and convey it to you by your requested date of March 24.

We will also make arrangements for a March 28 and 29 meeting to discuss the use of this information with you and representatives of the Oak Ridge National Laboratory. Our meeting room facilities at the plant are somewhat limited and we suggest utilizing facilities in our Minneapolis offices for at least the meeting on March 29. We will coordinate with you by phone on the logistics required for the meeting.

Yours very truly,

E C Ward, Director
Engineering Vice Presidential Staff
