ENVIRON

Gentlemen:

This refers to your letters dated January 31, 1972, which transmitted errata sheets for the environmental reports for the Monticello Nuclear Generating Plant and the Prairie Island Nuclear Generating Plant. The environmental reports and supplements are distributed to Federal, State and local agencies and to interested private organizations and individuals. Because of this, and the large number of changes indicated in the errata sheets, we believe it is inappropriate to request all holders of the environmental reports to make the required pen-and-ink changes. We request, therefore, that you submit 300 copies of corrected replacement pages to be inserted into the environmental reports. Your submissions should be identified as sequentially numbered supplements to the environmental reports.

Sincerely,

Peter A. Morris, Director
 Division of Reactor Licensing
