Mr. Daniel R. Muller
Assistant Director for Environmental Projects
United States Atomic Energy Commission
Washington, D.C. 20545

RE: Monticello Nuclear Generating Plant, Unit No. 1
Northern States Power Company
Docket Number: 50-263

Dear Mr. Muller:

Environmental Impact documents regarding N.S.P. Monticello Nuclear Generating Plant, Unit No. 1 have been reviewed by the Historic Sites Department of the Minnesota Historical Society. It is the finding of this department that no historic sites, archaeological or architectural, are known to exist on or in the immediate vicinity of the plant site. The area is known in Minnesota's early Indian and fur trade history, but no sites of importance concerning these historic aspects have been located to date in the plant site.

It is requested, however, that should evidence of previous habitation be discovered during construction of the plant, notification of such be made to the Archaeology Department of the Minnesota Historical Society.

Respectfully,

Russell W. Fridley
Director, Minnesota Historical Society
State Liaison Officer for the
National Register
