Mr D R Muller  
 Assistant Director for  
 Environmental Projects  
 Directorate of Licensing  
 U S Atomic Energy Commission

Dear Mr Muller:

MONTICELLO NUCLEAR GENERATING PLANT E-5979  
 Environmental Technical Specifications - Appendix B

Recent questions relating to the applicability of Appendix B to the Appendix A Technical Specifications has required us to request a delay in our proposed submission date of September 17, 1973 to October 29, 1973.

The extension of time will allow our environmental and operating staffs to review the proposed Appendix B draft with the Appendix A requirements, specifically the administrative sections. At this time, we feel the proposed draft guidelines for development of Appendix B administrative section relate directly to our present Appendix A administrative section. The added review time will insure that the Appendix A and B Technical Specifications will not interfere with each other in levels of reporting limiting conditions or administrative guides.

Yours very truly,

E C Ward, Director  
 Engineering Vice Presidential Staff
