Dear Mr Keppler:

MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

Effluent and Waste Disposal Semiannual Report
for January 1, 1979 through June 30, 1979

In accordance with the Monticello Technical Specifications, Appendix A to Operating License DPR-22, we are submitting two copies of the Effluent and Waste Disposal Semiannual Report covering the period January 1, 1979 through June 30, 1979.

In this report we have continued to report nuclides at their lower limit of detection (LLD) value when they are not detected in plant releases. In accordance with current NRC Guidance, however, we will discontinue this practice with the next semiannual report. Planned changes to our computer based data system to permit this change to be effective with this report were not completed by the required submittal date.

Yours very truly,

L O Mayer, PE
