Effluent and Waste Disposal Semiannual Report
for July 1, 1987 through December 31, 1987

In accordance with the Monticello Technical Specifications, Appendix A to Operating License DPR-22, we are submitting one copy of the Effluent and Waste Disposal Semiannual Report, covering the second half of 1987.

Analyses for isotopes Sr-89 and Sr-90 were not completed for the 4th quarter in time to be included with this report. These analysis results are not expected to significantly change the computed offsite doses, and will be included with the next semiannual report.

Enclosed with this report is an amendment to the Effluent and Waste Disposal Semiannual Report for the first half of 1987, which did not include the results of analyses for Sr-89 and Sr-90.

F. L. Fey, Jr., General Superintendent
Radiological Protection and Chemistry
