Dear Mr Spessard:

MONTICELLO NUCLEAR GENERATING PLANT  
Docket No. 50-263 License No. DPR-22

In our response dated December 22, 1981 to the violations identified in I.F. Inspection Report No. 50-263/81-16, we stated an additional action would be taken by January 30, 1982. This action was for the Operations Committee to review subcommittee recommendations and identify further actions with respect to the functions of Job Supervisors. It has been found that this area requires greater study than initially realized and results from recent Q.A. audits should be considered. It is now expected that this action will be completed by March 31, 1982.

Yours truly,

D E Gilberts  
Senior Vice President  
Power Supply
