Additional Response to Inspection Report 50-263/85-04(DRS)

In our response to Inspection report 50-263/85-04(DRS) dated March 8, 1985 we provided our commitment to perform a complete review of our Purchasing Department Policies and Procedures Manual and make necessary revisions by December 31, 1985. The purpose of this letter is to provide a status report of this work and a schedule for completing additional work related to the original corrective action.

Review of the manual was completed by December 31, 1985. However, a number of additional desirable changes to the manual were identified and additional procedures were drafted. Printing and distribution of the revised manual were held up for this reason.

The manual is now complete and is being printed. Distribution of the manual will be completed by June 1, 1986.

Please contact us if you have any questions related to our schedule for closing out required action on this item.
