U.S. Nuclear Regulatory Commission
Region III
2443 Warrenville Road Suite 210
Lisle, Illinois 50532-4352

Re: License No. 21-26317-01 Control No. 575069

Dear Mr. Herr

As per our phone conversation on 10/25/2011 concerning Item 10.4 Material Receipt and Accountability. I have been maintaining the records of all sealed sources, receipts, transfers, disposal of gauges, personal exposure records, leak test records and training certificates for all users within a time interval of 6 months since we purchased the nuclear gauges under the possessed license of the Houghton County Road Commission. I've also conducted physical inventories when I have used and leak tested the nuclear gauges for accountability and the possibility of the gauges being lost, stolen or misplaced. Since I am the RSO at the Houghton County Road Commission, I assume the responsibility of this physical inventory and will make sure it is documented and performed within the 6 month time interval. If there are any additional items you request please let me know as soon as possible so we can get the renewal license processed. Thank-you for your patience and cooperation dealing with this license renewal matter.

Sincerely,

BOARD OF COUNTY ROAD COMMISSIONERS

Robert E. Bessonon
Radiation Safety Officer
