Subject: Questions about Crook County Schools

Dear Ms. Steele,

As you can see by my signature block, I work for the U.S. Nuclear Regulatory Commission. I'm the environmental project manager for a proposed uranium recovery project located in Oshoto. The project proponent, Strata Energy, Inc. has submitted an application for license, and it is currently being reviewed. The review consists of two parts, a safety review and an environmental review. For the environmental review an environmental impact statement needs to be prepared. Fourteen major resource areas are analyzed in the document, including socioeconomics, of which education is a part.

I'm writing to you as a result of my telephone conversation with your receptionist Gerry (the only place I knew to start, as there was no information on the District's website for what I am looking for:

1. How many schools are in the district?
2. Where are the schools located?
3. Is there a map of the school district?
4. What are the school's names?
5. What is the overall district population?
6. What is the population of each school?
7. What is the student population trend (overall and by school)?
8. What is the student to teacher ratio (overall and by school)?
9. Is there a map of school bus routes?
10. What are the start and end times of each of the bus routes?
11. Are students bussed in from outside the county?

Thank you for your assistance.

Respectfully submitted,

Alan B. Bjornsen
