Hi Alan, that will work for me. I will check with Pam – she lives in Crook County, so about 2 ½ hrs from Sheridan. Maybe you could meet with her & her husband and some of our other members over there when you are in the field? If not, I'll see if she can make it to Sheridan. I would also like to loop in NRDC (Geoff Fettus) via the phone if that is ok. They have been working with us on reviewing the Strata project. Thanks, Shannon

Shannon,

Our environmental team will be in Sheridan on Tue, Aug 23. Would we be able to meet with you in the afternoon (probably after 3:00)? Would Pam Viviano also be present?

Regards,
Alan

Thanks, Alan. That would be nice to meet with NRC while you all are around. As of now the Aug 23-24th dates are open. Go ahead and coordinate with DEQ and fit us in whenever. Our office is just down the street (probably about 2 miles) from DEQ as you head into town.

And thanks for the info on the Lost Creek ROD. I am now remembering what happened with Moore Ranch so that makes sense.

All the best, Shannon

Shannon,

On another note, the NRC has accepted the application submitted by the Strata Minerals for the Ross project in Crook County. I am the environmental PM for the detailed technical review, and will have a team of four people in WY the week of Aug 22nd. In addition to a site walkover, including invited agencies, we will be visiting the offices of various agencies (federal State, and local). We plan to be in Sheridan on Tue, Aug 23rd

(all day), and Aug 24th in the am. Would we be able to stop in your office on either Tue in the pm, or Wed in the am? We would like to go over our plans for the SEIS for the Ross project. Thank you.

Regards,

Alan B. Bjornsen

Hi Alan – We received in the mail a copy of the final SEIS for the Lost Creek project. Thanks for mailing that to us. I am wondering if NRC has an anticipated timeframe for issuance of the ROD?
Thanks, Shannon
