**To:** Saxton, John  
**Subject:** Strata RAI

John,

A potential RAI that we should introduce to Strata.

*Figure 5.7-4 shows the restricted and controlled areas. NRC staff cannot determine if the boundary of the control area and the boundary of the restricted area as defined in 10 CFR 20.1003 (See Definition for Control Area and Definition for Restricted Area) are correct. In reviewing this figure, it appears that the two definitions are implemented in reverse order. A restricted area cannot be outside of a control area. The applicant should review the figure, the definition(s) and correct this figure accordingly.*
