Ben,

I've included the ERB people on the scheduler – At this time, I haven't received a confirmation from Andrew. Jennifer Davis will be on leave around that time but will try phone in. I gave her the probable agenda regarding 106 concerns (e.g., separating the NEPA and 106 processes), and she indicated that she would have to talk to upper management and OGC. I have a call into Molly to see if she can attend. I'll follow up with both (Jennifer and Molly) today and talk to Alan regarding the availability of Dr Tretabas. I will get back to you later this morning regarding any additional info.

John--

We have met regarding the proposed meeting on October 18th and would like to focus on Section 106. Key then will be what members of ERB would be available? Ms. Davis, Alan, Johari, Kevin and Andrew would be very beneficial to this meeting in addition to Dr. Tretabas (via bridgeline). Perhaps we could include Alan in one of our PM to PM calls prior to 10/18 in order to talk about more specific agenda items relating to Section 106. If you could, please let me know on this as having the right people in the room will determine whether we proceed with this meeting as planned. I appreciate all of your hard work on this application. Take care.

Ben

Also, bear in mind that we may or may not need the meeting date but due to timing of NRC's public meeting policy, we needed to book this. We should know later today or tomorrow if we will cancel. Thanks again for all your help!

Chris

Yes, I tentatively scheduled a meeting for both times that you suggested in your earlier e-mail.

I need the following from you ASAP:

Which time would be preferable for the meeting  
Agenda  
List of participants.

I have Betty on standby to process the paperwork. I would like to get it to her by noon; I will be participating on the EPA SAB teleconference on Part 192 revisions this afternoon.
