John--

Can we simply send pdf files with the specific sections for replacement within the larger documents? For example, for the Ross ISR TR, Addendum 2.9-D could we send this as a stand alone pdf for insertion into the appropriate volume or do we need to provide the entire pdf with the replaced section? Let me know on this as the stand alone pdf's for insertion will be emailable but the entire pdf with the section replaced will not be. Thanks.

Ben

Ben,

Good Morning. I was out of the office last week.

Electronic files e-mailed to me would be acceptable. I will forward them into ADAMS as appropriate.

The consultation letters were sent out two weeks ago and I believe they were in ADAMS by February 17<sup>th</sup>

Thanks

John Saxton

John--

I hope things are going well with you. We're finalizing the limited data sets to be included in the Ross TR and ER per the cover letter dated January 4, 2011 to Keith. I believe the files will be small enough to email and I wanted to make sure that was the appropriate delivery method (assuming they will meet NRC electronic submittal criteria). In addition, we'll be supplying a revised affidavit and updated figures for the TR for public consumption. If you get a minute, please let me know how you prefer these data to be transmitted. Also, just out of curiosity, what is the status of the Section 106 letters?

Respectfully,

Ben
