You can use two addresses for me.

One is to MS T-8F5, Washington, DC 20555-0001 (this is to a mailbox which is forward to our office).

The other is to the office.

John Saxton
Hydrogeologist
Office of Federal and State Materials and
Environmental Management Programs
11545 Rockville Pike, MS T-8F5
Rockville, Maryland 20852

T&P is located within the district and it may not be worth it for them to deliver just a CD.

John

John--
Please refresh my memory on the best/most efficient address to use when sending items to you via snail mail.
Thanks.

Ben

P.S. I could also send to Thompson & Pugsley then have them hand deliver, if that would be easier.

John--
Thanks for your time yesterday. Please see the attached excel spreadsheets provided to the WDEQ/LQD

several weeks ago. The format reflects LQD requirements and these data include both ground and surface water results. You also requested the Class 1 Permit and hydrographs from the baseline monitoring wells. These files are too large to be sent via email so I will sent them via snail mail on a CD. The CD should go out today. I hope the acceptance review is going well and feel free to let me know if you have any questions.

Respectfully,

Ben Schiffer
