11/15/11 (07:00) I reviewed a message from Mr. Renquist concerning 10 CFR 31.12 and its applicability to the Ra-226 source possessed by Aquatek. After comparing the regulations in 10 CFR 31.5 and 12 and discussing the differences with Elizabeth Ullrich, we reached the conclusion that the source met the requirements of 31.12 and did not require distribution from a manufacturer with a G-License. (09:00) Randy Boncek answered the phone. He stated that Mr. Graham would be in later in the day and would return my call. (09:30) I informed Mr. Renquist of the determination regarding 10 CFR 31.12 and thanked him for his help.

11/16/2011 (15:45) Mr. Graham called back. I informed him of my discussions with the representative of IPL and NRC coworkers and our conclusions that the Ra-226 source possessed by Aquatek is covered by 10 CFR 31.12. I showed Mr. Graham how to get to the NRC website and print out copies of 10 CFR 20.2008 and 31.12 so that he could have them on hand. I thanked Mr. Graham for his patience in this matter.
