SUBJECT: MONTICELLO NUCLEAR GENERATING PLANT
NRC SECURITY BASELINE INSPECTION REPORT 05000263/2011406(DRS)

Dear Mr. O'Connor:

On October 21, 2011, the U. S. Nuclear Regulatory Commission (NRC) completed a security baseline inspection at your Monticello Nuclear Generating Plant. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed inspection report documents the inspection results, which were discussed on October 21, 2011, with you and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of the inspection, no findings of significance were identified. However, two licensee-identified violations, which were determined to be of very low security significance, are listed in this report. The NRC is treating these violations as Non-Cited Violations (NCVs) consistent with Section 2.3.2 of the NRC Enforcement Policy because of the very low security significance of the violations and because they were entered into your corrective action program. If you contest the subject or severity of an NCV, you should provide a response within 30 days of the date of this inspection report, with the basis for your denial, to the U. S. Nuclear Regulatory Commission, ATTN.: Document Control Desk, Washington DC 20555-0001; with a copy to the Regional Administrator, U. S. Nuclear Regulatory Commission – Region III, 2443 Warrenville Road, Suite 210, Lisle, IL 60532-4352; the Director, Office of Enforcement, U. S. Nuclear Regulatory Commission, Washington, DC 20555- 0001; and the Resident Inspector Office at the Monticello Nuclear Generating Plant.
