Subject: RAI concerning change to possession limits
(NOTE: This will be used as the Documents Title in ADAMS)

In the letter dated 10/24/2011, FAHC stated that the Cs-137 brachytherapy sources had been transferred to Bionomics for disposal. Based on this, I contacted Marleen Moore to discuss reducing the stated possession limit for 35.400 materials on the license. M. Moore stated that the new possession limit should be 500 millicuries, which will be adequate for the prostate brachytherapy sources..

Action Required: Complete the amendment
