Subject: Correct Inventory

(NOTE: This will be used as the  
Documents Title in ADAMS)

As of today, the licensee had not responded to my earlier request about their current inventory. I had also requested him to review their records and call me back with correct information, including the fate of the Troxler Model 3241 and he had promised to call me back before November 17. Not having received any response, I called the licensee again to request the needed information.

The licensee stated that currently they possess 14 Troxler Model 3400 series, 5 Model 3411 and one Model 3241C portable gauges. Model 3241C contains 100 mCi of Am-Be sealed source.
