Dr. Zamenhof,

In order to complete the amendment request, we need the following additional information:

1. Initial number of sources and activity loaded by Nucletron into your LDR device.
2. Confirmation of receipt of sources by Nucletron with a list of sources and the activity received.
3. Leak test results for sources transferred back to Nucletron.

You may fax the information to my attention to 610-337-5269. Please refer to Mail Control No. 576335 in your response.

Thank you for your assistance,
