Subject: RSO on License 30-02405-10 has resigned from her position

Hi Dr. Roldan Otero,

I was the RSO on license # 30-02405-10 and I wanted to make sure you were informed that I resigned from my position at Survivability Vulnerability Assessment Directorate at White Sands Missile Range NM. My last day to physically be at the missile range was November 18, but I believe for paperwork purposes, the Army's Civilian Personnel Department is saying my last day will be December 1. Since I gave my notice in early November, I have not been informed of upcoming tests being performed at the Gamma Range or the El Dorado nor which customers were performing them. To the best of my knowledge, Henry Trujillo (henry.d.trujillo.civ@mail.mil; 575-678-1167) is your point of contact for this. Prior to my leaving, SVAD's director (John Okuma 575-678-1165) and I spoke about the need for either Henry or Mary Donahue (575-678-6177) to call you and/or submit an amendment taking me off as RSO and assigning someone else as RSO. I am not sure of the status of that and apologize if you are already dealing with SVAD's licensing issues.

I really enjoyed working with you when I was applying for the license and talking to you about our calibration issues.

Sincerely,

Elise Barrera
