Mohamad and staff,

Thanks again for hosting us at your facility. As a follow-up to our meeting last Friday, November 18th. Here is a link to our public website containing the reference documents we discussed, NUREG-1537 and the Interim Staff Guidance (ISG) published in 2009 describing the focused review:

We look forward to hearing from you regarding your anticipated date of submission for the remaining information needed to complete the relicense renewal review.

Thanks again,

A. Jason Lising
