Dear Ms. Joustra:

As per our discussion today, STL agrees that the possession limits in our license should contain a combined total activity amount for the Whippany, NJ and Monroe, CT laboratories. We will then internally determine amounts that can be possessed at each of the two labs. Please make this modification to our license application.

Thank you for attention to this matter. If you have any further questions, please call me at 203-452-3253.

Sincerely,

Michael V. Bonomo
