Subject: Ross Uranium ISR Project

Mr. Blakeman,

I am the environmental project manager for the above-referenced project. Strata Energy is seeking a materials license from the NRC to operate a uranium in-situ recovery facility in Oshoto. I was speaking with Joe Baron from Sundance this morning, and he suggested that I contact you. An NRC environmental team will be in WY the week of Aug 22-26. We would be able to meet with you on Wednesday afternoon, Aug 24. We are planning full days for the remainder of the week. Is this agreeable to you? There would be 4 or 5 of us representing the environmental team.

Thank you.
