Subject: RE: Section 106 Consultation at Ross Project

Alan – I appreciate your concern, which was indeed very clearly communicated to Strata on Tuesday. I was very clear with Wast'e win in our phone conversation that any site visit where NRC was not present would not be an official part of the Section 106 process, that I did not know how many additional site visits NRC would be able to accommodate, and that the NRC is the driver for the date of any future Section 106 site visits.

Best regards,

Melissa Butcher

Melissa,

Thank you for cc-ing me on you correspondence with the tribes. You should understand that when a tribe visits the Ross site, it is imperative that NRC personnel also be present. I believe you were on the conference call on Tuesday where that was discussed. Given that, we're not sure how many times we can travel to WY for these site visits, as we have a very limited budget.

Alan

Subject: Section 106 Consultation at Ross Project
Importance: High

Good morning, Wast'e win –

It was a pleasure visiting with you this morning regarding the upcoming site walkover and Section 106 consultation to be held at Strata Energy's Ross Project on November 2 and 3. I understand that you have a conflict that will prevent you from joining us on that date. We will be happy to accommodate you at a later date that suits your schedule. As we discussed this morning, we will want to make every effort to have a representative of the NRC on site in order to adhere to the government-to-government construct of the Section 106 process. To that end, would you be able to provide us with two or three dates later in November that might work for you? We can then run those by the NRC and see if they have staff available on any of those dates.

In the meantime, please do not hesitate to contact me if you have any questions or concerns. We look forward to meeting you in the near future.
