Mrs. McMaster

Great news, thank you for being able to accommodate us.

Also, Exelon will not be on the tour with us. It will only be NRC staff and NRC contractors from Argonne National Laboratory.

We will be meeting with them separately.

When would be a good time to talk with you regarding our potential visit?

Thanx

Alicia

Hello Alicia, I do remember meeting you at the meeting. We had looked for your group this year but January should be fine. I have a question though. You are saying you and Exelon representatives will both be touring Paradise Ranch. It will not just be the NRC? Please let me know. I will have to have Ranch approval if Exelon is planning to attend with the NRC..

Thank you,
Connie McMaster
President, PRLOA

Mrs. McMaster:

My name is Alicia Williamson and I work with Tomeka Terry, Environmental Project Manager for the Victoria Early Site Permit, at the NRC on the environmental review team.

Last year at the Victoria Early Site Permit Scoping Meeting held at the Victoria Community College,

you and several other members of the Paradise Ranch indicated you would be

willing to take NRC subject matter experts (hydrologists, ecologists, cultural resources & historic property experts) on and around the Paradise Ranch property.

We are planning to conduct a site audit the week of January 9-13, 2012 in Victoria with Exelon, and would like to schedule a time during this week to tour the Paradise Ranch property.

Are you available over the next few days to talk about a potential visit? Please let me know when would be the best day and time to call you, we can further discuss the details.

I look forward to talking with you and thanks again for extending this courtesy to the NRC.

Sincerely,

Alicia Williamson
