SUBJECT

Clarification of "Environmental Samples" Pertinent to NRC License No. 24-20091-01

SUMMARY

The licensee was informed by Bob Gattone and Kevin Null that the RSO's interpretation of "analysis of environmental samples" in Subitem 9.C. of NRC License No. 24-20091-01 was incorrect regarding radioactive rags at a landfill, slurries, contaminated ceramic, and contaminated pipe.

To address the concern, the licensee will submit a license amendment request to add a new authorization to the license for collecting and analyzing radioactive rags at a landfill, slurries, contaminated ceramic, contaminated pipe, and other similar items.
