Position 1HP-14 to BLEED. C. Notify SRO. IAAT letdown bleed is NO longer desired, THEN position 1HP-14 to NORMAL. **IAAT** 1C HPI PUMP is required, **THEN** perform Steps 7 – 9. 6. RNO: GO TO Step 10. Open 1HP-24 and 1HP-25 7. 8. Start 1C HPI PUMP Throttle the following as required to maintain desired Pzr level: • 1HP-26 1HP-27 10. IAAT LDST level CANNOT be maintained, THEN perform Step 11. RNO: GO TO Step 12. 11. Perform the following: Open 1HP-24 Open 1HP-25 Close 1HP-16

Time	Position	Applicant's Actions or Behavior
		Crew response:
	OATC/BOP	EOP Enclosure 5.5 (Pzr and LDST Level Control) (if needed)
		12. IAAT additional makeup flow to LDST is desired, AND 1A BLEED TRANSFER PUMP is operating, THEN dispatch an operator to close 1CS-48 (1A BHUT Recirc) (A-1-107, Unit 1 RC Bleed Transfe Pump Rm.).
		13. IAAT two Letdown Filters are desired, THEN perform the following:
		Open 1HP-17.Open 1HP-18
		14. IAAT all of the following exist:
		 Letdown isolated LPSW available Letdown restoration desired
		THEN perform Steps 15 - 33 RNO: GO TO Step 34.
		34. IAAT it is determined that letdown is unavailable due to equipment failures <u>or</u> letdown system leakage, THEN notify CR SRO to initiate AP/32 (Loss of Letdown).
		35. IAAT > 1 HPI pump is operating, AND additional HPI pumps are NO longer needed, THEN perform the following:
		A. Obtain SRO concurrence to reduce running HPI pumps.
		B. Secure the desired HPI pumps.
		C. Place secured HPI pump switch in AUTO, if desired.
		36. IAAT <u>all</u> the following conditions exist:
		 Makeup from BWST NOT required LDST level > 55"
		All control rods inserted
		Cooldown Plateau NOT being used
		THEN close:
		1HP-241HP-25
		37. Verify 1CS-48 (1A BHUT Recirc) has been closed to provide additional makeup flow to LDST.
		RNO: GO TO Step 39.
		 Verify two Letdown Filters in service, AND only one Letdown filter is desired.
		RNO: GO TO Step 41.
		41. WHEN directed by CR SRO, THEN EXIT this enclosure.

These actions are complete when EOP Enclosure 5.5 (Pzr and LDST Level Control) is exited.
