NOV 16 2011

James L. Berry, P.E.
Vice President / Radiation Safety Officer
Schleede-Hampton Associates, Inc.
2254 Cole Street
Birmingham, MI 48009

Dear Mr. Berry:

Enclosed is Amendment No. 03 to your NRC Material License No. 21-26657-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions and changes made. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887.

Please note that we removed Condition No. 21 as appeared in Amendment No. 02 in your NRC Materials License. This condition is no longer needed since your license now contains possession limits. This change required renumbering of the subsequent License Condition.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

J. Berry

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael G. Herr". The signature is fluid and cursive, with the first name "Michael" being the most prominent.

Michael G. Herr, CHP
Materials Licensing Branch

License No. 21-26657-01
Docket No. 030-33877
