Subject: RE: OAR - Forwarding Of Supplement 1 To NUREG-1930...To The Advisory Committee On Reactor Safeguards

Kent,

I should have also mentioned that the ASLB plans to have a meeting within the next few days to discuss this with the NRC and the interested parties in the next couple of days so if you could have a response by then it would be helpful. Thanks.

Subject: RE: OAR - Forwarding Of Supplement 1 To NUREG-1930...To The Advisory Committee On Reactor Safeguards

Kent,

The staff would like to know if the ACRS has interest in an additional meeting regarding Indian Point license renewal.

Kent,

Naturally I will have to discuss this with my management who will likely get back to you.

Rob:

Just left the ACRS P&P meeting. The good news is that they are not going to bring you back to discuss Supplement 1 to the IP NUREG, but there is a catch. They (the Committee) wanted me to reach out to you to float the idea of you guys coming back to them to update the Committee on IP since the last meeting. With IP being such a high profile plant, we just want to make sure the bases are covered. Run this proposal by your (and Entergy's) management, let me know if this is feasible, and then we'll discuss logistics.

Kent,

Here is the distribution for the memo to ACRS and the ML number for the supplement.
