Sincerely,

Carlos Cabrera Bonet  
Executive Director

ADDITIONAL INFORMATION REQUESTED FOR NRC LICENSE RENEWAL 52-13471-01

Licensee: Dr. Isaac Gonzalez Martinez Oncology Hospital

License Number: 52-13471-01

Docket Number: 03003532

Mail Control: 575540

- a) Response is dated and signed by Executive Director.
- b) License should be issued in the name of "Liga Puertorriqueña Contra el Cancer" as license 03. Location: Dr. Isaac Gonzalez Martinez Oncology Hospital – Radiotherapy Department.
- c) We request to increase for possession of depleted uranium from 500Kg to 550Kg.
- d) Retain all sources manufacturers and model numbers currently listed in the license. All Cs-137 sources in our possession will be for storage. At this moment they will no longer be use. We are in the process of buying new ones and dispose as regulation requires of the old ones.
- e) For survey we will use a general purpose survey meter with end window GM with pancake probe and a rotary beta shield. The leak test instrumentation will be a scaler with sodium iodide well detector.
- f) The walls are concrete and the door is shielded with lead. To ensure radiation levels are above the levels specified in 10CFR20.1301.
- g)
  - i) Radiation monitoring instrument will be calibrated by a person qualified to perform survey meter calibrations. We reserved the right to upgrade our survey instruments as necessary as long as they are adequate to measure the type and level of radiation for which they are used.
  - ii) We will provide dosimetry that meets the requirements listed under Criteria in NUREG 1556, Vol 9, Rev. 2.. Or we will perform a prospective evaluation demonstrating the unmonitored individuals are not likely to receive in 1 year, a radiation dose in excess of 10 % of the allowable limits in 10CFR Part 20.
  - iii) We have developed and will implement and maintain written procedures for area surveys in accordance with 10CFR20.1101 that meets the requirements of 10CFR20.1501 and 10CFR35.70.
  - iv) We have developed and will implement and maintain written procedures for safe response to spills or leakage of licensed material in accordance with 10CFR20.1101.
  - v) We have developed and will implement and maintain written waste disposal procedures for licensed material in accordance to 10CFR20.1101. Also meets the requirements of the applicable section 10CFR Part 20, Subpart K, and 10CFR35.92.
