Subject: RAI concerning the change of LOU

(NOTE: This will be used as the Documents Title in ADAMS)

On 12/1/2011 we received a faxed request to add a location of use (LOU) to the license. On 12/2/2011, the licensee contacted the NRC to inform us that they had transferred their sealed sources to a LOU that was not on their license. They had planned on adding the LOU to the license and forgot to send in the request. Because of the timeframe we expedited the amendment request. In order to complete the amendment I requested that they provide a letter signed by management that confirmed that the (1) LOU was not their mailing address, (2) all waste had been properly disposed of, and (3) provide us with a list of the sealed sources that were moved to the new location.

Action Required: Wait for information and complete the license amendment/inspection
