Subject: Request for  
Additional Information  
(NOTE: This will be used as the  
Documents Title in ADAMS)

While processing an amendment request to add an authorized user, the reviewer requested by telephone a copy of the Oregon State License that listed the proposed authorized user and the type of RAM that applies to the AU.

Action Required: Licensee submitted the requested documentation via fax on 11/23/2011

License No. ORE-90367  
Amendment Number 25

**RADIOACTIVE MATERIALS LICENSE**

Pursuant to Section 274 of the Atomic Energy Act of 1954 as amended, Oregon Administrative Rules for the Control of Radiation and in reliance on statements and representations made by the Licensee referred to below. This license is hereby issued authorizing the Licensee to transfer, receive, possess and use radioactive material(s) designated below. This license is subject to all applicable rules, regulations, and orders now in effect by the DHS PUBLIC HEALTH DIVISION and all conditions specified below.

In accordance with renewal application dated December 28, 2010, Oregon Radioactive Materials License Number ORE-90367 is amended in its entirety to read as follows:

<p>1. Name     Saint Alphonus Medical Center-Ontario, Inc.</p> <p>2. Address   351 SW 9th Street Ontario, Oregon 97914</p>	<p>3. License Number ORE-90367</p> <p>4. Expiration Date February 29, 2016</p> <p>5. License Type Medical Diagnostic/Therapy QMP</p>
--	--

6. Radioactive materials (element and mass number)	7. Chemical and/or physical form	8. Maximum quantity licensee may possess at any one time
A. Any radioactive material identified in OAR 333-116-0300	A. Any radiopharmaceutical identified in OAR 333-116-0300	A. As needed.
B. Any radioactive material identified in OAR 333-116-0320	B. Any radiopharmaceutical identified in OAR 333-116-0320	B. As needed.
C. Any radioactive material identified in OAR 333-116-0420	C. Any brachytherapy source identified in OAR 333-116-0420	C. 29.6 GBq (800 millicuries).

9. Authorized use.
- A. Medical use as described in OAR 333-116-0300.
  - B. Medical use as described in OAR 333-116-0320.
  - C. Medical use as described in OAR 333-116-0420.

**CONDITIONS**

- 10. Licensed radioactive material shall be used only at the licensee's facilities stated in Item 2 above.
- 11. This license is subject to and void without an annual validation certificate. Insofar as the licensee has submitted the proper fee prior to the expiration of a validation certificate, such existing validation certificate shall not expire until the issuance of a new validation certificate for the then current fiscal year.

**RADIOACTIVE MATERIALS LICENSE**

Continued from Page 1

CONDITIONS (cont.)

12. A. The Radiation Safety Officer for the activities authorized by this license is Robert T. Yeager, M.D.
- B. The Assistant Radiation Safety Officers for the activities authorized by this license are Janet Cegnar, M.D., John Gambino, M.D., and David G. Wood, M.D.
13. A. Licensed radioactive material listed in Item 6 above is authorized for use by, or under the supervision of, the following individuals for the materials and uses indicated:

NAME

USE

Janet M. Cegnar, M.D.  
John Gambino, M.D.  
Robert T. Yeager, M.D.  
David G. Wood, M.D.

Subitems A and B  
Subitems A and B  
Subitems A and B  
Subitems A and B

Charles E. Smith, M.D.

Subitem C

- B. The Medical Physicist for the activities authorized by this license is:
- Rodney J. Wimmer, Ph.D.
14. A. Notwithstanding the requirement to prepare and use drugs in accordance with the package insert, if, in the judgement of the physician as an authorized user, departures from the package insert, or use of unapproved drugs, is indicated, the physician may perform such procedures consistent with good professional medical practice as judged by the Oregon Board of Pharmacy, the Oregon Board of Medical Examiners, and/or the Oregon Radiation Advisory Board, as appropriate.
- B. Procedures shall be done by or under the supervision of persons whose training meets the requirements in OAR 333-116 and shall be in accordance with safe radiation safety procedures and ALARA in OAR 333-120. Radiopharmaceuticals shall not be used in humans until their pharmaceutical quality and assay have been established. Records documenting radioactive material use described in A. of this condition shall be kept by the licensee until inspection by the Agency.
15. Insofar as the licensee restricts the possession of unsealed byproduct material or readily dispensable source to quantities less than  $10^4$  or  $10^5$  of the applicable limits in Appendix B of 10 CFR Part 30, as specified in 10 CFR 30.35(d), or 40.36(b), or 70.25(d), the licensee is not required to provide financial assurance pursuant to OAR 333-102-0200(6).

CONDITIONS (cont.)

16. Notwithstanding the requirements in OAR 333-120-0180 and 333-116-0260, the licensee is authorized to release a patient who has been administered therapeutic radiopharmaceuticals or permanent implants containing radioactive material if the total effective does equivalent (TEDE) to any other individual is not likely to exceed 500 mrem. Upon release, the licensee shall:
- (1) Provide the patient with written instructions to maintain doses to other individuals as low as reasonably achievable if the TEDE to any other individual is likely to exceed 5 millisieverts (0.5 rem);
  - (2) Maintain, for three years after date of release, a record of the basis for authorizing patient release if the TEDE is calculated:
    - A. using the retained activity rather than the activity administered
    - B. using an occupancy factor less than 0.25 at 1 meter
    - C. using the biological or effective half-life, or
    - D. considering shielding by tissue
  - (3) Maintain a record, for three years after the date of release, showing that instructions were provided to a breast-feeding woman if the radiation dose to the infant or child from continued breast-feeding could result in a TEDE exceeding 5 millisieverts (0.5 rem).
17. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations and procedures contained in the documents, including any enclosures listed below, except for minor changes in medical use radiation safety procedures as provided in OAR 333-116-0370. The Oregon Rules for the Control of Radiation shall govern, unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the rules.
- A. Renewal application dated December 28, 2010, signed by Robert Yeager, M.D., RSO, & Richard L. Palagi, CEO, submitted under cover letter dated January 28, 2011.

Date: February 11, 2011
