

December 22, 2011

Mr. Petr Brandejs, Vice President for Nuclear Safety
State Office for Nuclear Safety (SÚJB)
Senovážné náměstí 9,
110 00 Praha 1
Czech Republic

Dear Mr. Brandejs:

It is my sincere pleasure to invite you to speak at the United States Nuclear Regulatory Commission's (NRC) 24th Annual Regulatory Information Conference (RIC). The Conference will be held on March 13-15, 2012, at the Bethesda North Marriott Hotel and Conference Center, 5701 Marinelli Road, North Bethesda, MD 20852. Every year, the RIC brings together over 3,000 attendees consisting of CEOs, presidents of nuclear industry licensees, vendors insurers, law firms, consultants, nuclear industry associations, and regulators from around the world to address mutual challenges and share information.

We request your participation as a speaker on an international session entitled, "The Safety/Security Interface at Nuclear Power Plants — An International Interest." Mr. Marc L. Dapas, Deputy Director, Office of Nuclear Security and Incident Response, will serve as the session chair. This session will include perspectives from international regulators on guidance and methods for managing the safety/security interface. In particular, we are interested in your perspective as one of the few regulatory authorities mandated by national law to regulate both safety and security. Your insights, as it relates to SÚJB's experiences in the integration and management of safety-security activities, should be most informative. Due to the limited time for this session, we ask that each speaker keep his presentation to 12-15 minutes, in order to allow an opportunity for a 20-minute question and answer session following the presentations. Security regulators from the United Kingdom, Korea, and the Director of the Office of Nuclear Security, International Atomic Energy Agency have also been invited to attend this session and to share their experience in this area.

We hope that you are able to accept this invitation and join the panel. Please contact Mr. David Diec, at +1-301-415-2834 or via e-mail at david.diec@nrc.gov with your intention to participate as a session speaker, or with any questions related to the RIC or pre-RIC activities.

Please complete and return the enclosed Speaker Information and Confirmation, Agreement Form, identify presentation titles, and your biographical information by December 28, 2011, to ensure inclusion in the final printed program. In addition, please provide your final presentation slides by February 13, 2012. Online registration for RIC 2012 will be available in early January 2012, and additional information about the RIC can be found on the NRC website: www.nrc.gov.

Mr. Brandejs
