

Public Meeting Discussion on NTTF Recommendation 9.3 Tier 1 Items

December 12, 2011

Tier 1 and Tier 2 Recommendations

- **NEI/industry Task Force Teams have been assembled to support engagement and develop necessary guidance**
- **Guidance Development Goals**
 - **Backup Communications – March, 2012**
 - **ERO Staffing Study – May, 2012**
 - **Tier 2 Items – September, 2012**

Backup Communications Capability

- **Set event bounding assumptions (times, distances, equipment availability, etc.)**
- **Define the key communications functions that must be maintained**
- **Specify equipment storage and performance criteria (location, availability, timing, etc.)**
- **Include guidance on related topics such as procurement, surveillances and training.**

ERO Multi-Unit Staffing Study

- **Avoid specific scenario timelines due to event and timing variables and uncertainties**
- **Recommend using a function/capability approach**
 - **Similar to NEI 10-05 methodology**
 - **Specify the required functions/capabilities**
 - **Consistent with a flexible response**
