Re: Radiation Safety Officer  
License No. 21-15860-01

This letter serves notice that Edwin L. Renkie has assumed the Radiation Safety Officer (RSO) duties previously held by the retired Michael R. Yemen at the Lansing Board of Water & Light. Mr. Renkie is a chemical engineer that has successfully completed his mandatory 40 hour radiation safety training course on March 25, 2011.

Mr. Renkie has been given full authorization to perform his RSO duties including shutting down any operations involving our nuclear instrumentation that could compromise safety. Further, Mr. Renkie is free to discuss any matter concerning our nuclear instrumentation with the U. S. Nuclear Regulatory Commission without fear of retaliation.

Best Regards,

  
J. Peter Lark  
JPL/seg
