Steve,

We would like to have a clarifying conference call re question 06.04-15. We have developed a strategy to respond to the question and would like to confirm that we are addressing all the concerns. In addition, we would like to discuss how the NRC staff was able to perform extended run modeling using Habit.

Next week is probably not good because of Thanksgiving. We appear to be available most days the week of November 28. Please propose a day and time for the call. The call should not take very long.

The NRC staff has identified that additional information is needed to continue its review of the combined license application. The NRC staff's request for additional information (RAI) is contained in the attachment. Luminant is requested to inform the NRC staff if a conference call is needed.

The response to this RAI is due within 35 calendar days of **November 15, 2011**.

Note: The NRC staff requests that the RAI response include any proposed changes to the FSAR.
