Subject: Re: 30-day update for financial assurance is needed/overdue

Dear Mrs. Ulrich: I regret to inform you that our cyclotron has been down for nearly two months and today we are back to normal operations. Several things contributed to this enormous amount of downtime. Hopefully we are back to normal. As soon as the Service Engineer renders his final report, we will send you a copy. I will also keep you informed on a monthly basis. Thank you kindly.

Dr. Kolodziej and Mr. Rhoe,

Please note that the last official update was received from David Rhoe by email on October 31, 2011. Since then, reviewed and accepted the funding plan and cost estimate, and we issued the amendment to match the CFA to your list of radionuclides, and Mr. Rhoe and I had some email correspondence related to that in early November.

Please update me on your efforts to obtain a financial assurance instrument in the amount of the cost estimate. These updates are supposed to be provided every 30 days.

Thanks,

Betsy
