Carl,

Attached is the generic letter with distribution list. I need to research why your facility is not listed.

Please use the instructions in this version to respond.

Sorry for the confusion,

Susan

Gentleman,

I have discussed your participation in the initiative with the NRC Office of Nuclear Materials Safety and Safeguards and it was determined that several licensees including Trojan were inadvertently let off the original distribution of the letter inviting participation. I apologize for this oversight and I expect you to receive a letter about the initiative within the next 30 days.

In the meantime if you have any questions please do not hesitate to call me.

Regards,

Susan
