**To:** 'mitch.tillman@honeywell.com'  
**Cc:** Liu, Tilda  
**Subject:** Telephone Conversation Re: Honeywell Exemption Request

Mitch,

As you know, the NRC staff is considering your April 1, 2009, request to be exempted from certain portions of 10 CFR 30 regarding decommissioning funding assurance. This is the third such request. The staff has previously granted the two previous requests and the exemption has been documented in License Condition (LC)-27. The previous exemptions have been granted for a one-year period or until the effective date of a final rule amending 10 CFR Part 30.

In your April 1, 2009 letter, you state that the request should be granted because the "exemption is entirely consistent with a proposed rule published on January 22, 2008." The staff has reviewed that latest requirements in the proposed rule amending Part 30 and has determined that the proposed rule is not consistent with your exemption request. Therefore, part of your basis for considering a temporary exemption (i.e., that it was a bridge until the Honeywell approach used in the exemption could be codified in regulations) no longer exists.

The NRC staff would like to schedule a telephone conversation to discuss your exemption request, including:

1. Clarification of the basis for exemption request
2. Options Honeywell has considered for meeting 10 CFR Part 30 Requirements and their impacts

If you can accommodate, the staff prefers to hold the discussions the week of September 14, 2009. Tilda Liu will work with your staff to set-up a mutually agreeable date and time.

A copy of the EMAIL will be placed on your docket and made publically available.

Tom
