Subject: DC Ticket No. 10-0180
Date: Wednesday, December 14, 2011 10:22:14 AM
Importance: High

Deanna/Stacy:

This is to respond to the subject ticket requesting that DC provide certification that the original 20 individuals that were subject to the Grants Management Certification requirement have completed the training program. As of today, December 14, 2011, a total of 17 individuals that were originally required to be certified in accordance with the NRC's Grants Management Certification and Training Program, have completed the required training and have received their Grants Management Certificates.

Three (3) of the original twenty individuals did not complete the training for the following reasons: Two (2) individuals were reassigned to other branches and will no longer be working with grants and one (1) individual retired from the agency. Therefore, only 17 individuals were subject to the training and certification requirements.

The subject ticket has been completed.
