Subject: Additional information for renewal

I contacted Myria to resolve issues related to earlier communications. I e-mailed the issues to Myria and then called her:

- 1) Issue: Provide a statement from Executive Director Carlos Cabrera Bonet that he reviewed and concurs with the information submitted in the fax dated November 21, 2011.

Response: Myria agreed to do this.

- 2) Issue: Determine a single hospital name to be used in Item 10 for both this license and the -03 license. The -03 license currently lists "Hospital Oncológico Dr. Isaac González Martínez."

Response: Myria agreed that "Hospital Oncológico Dr. Isaac González Martínez" may be used in Item 10.

- 3) Issue: Provide detailed shielding analysis for the inpatient brachytherapy room, for both Cs-137 and Ir-192, demonstrating compliance with 10 CFR 20.1301. The licensee previously informed us that the current Cs-137 sources are not in use and will be replaced. If the shielding analysis cannot be provided quickly, the renewal can limit Cs-137 and Ir-192 brachytherapy sources to storage only, pending receipt of this information.

Response: Myria agreed to limit Cs-137 and Ir-192 brachytherapy sources to storage only, pending future submission of a detailed shielding analysis.

Action Required: Await statement from Carlos Cabrera Bonet, then issue renewal.
