I called to inform Mr. Brehm that due to a recent audit, we identified their NRC license required maximum possession limits.

I asked him how many portable gauges he would be utilizing in NRC jurisdiction at any one time. He told me that if he did have work in NRC jurisdiction, 2 is the most he would utilize at any one time.

I told him we would set the maximum amounts as follows:

- A: cesium-137 at 18 millicuries; and
- B: americium-241 at 88 millicuries.

I thanked him for his time and ended the call.
