Cliff,

We'll like to have a Telephone conference to discuss FENOC's response to RAI 4.7.4-1. Specifically we'll like to discuss the following:

- Revision of commitment 23: What's the reason to remove from the commitment the replacement of the HPI/makeup nozzle thermal sleeve?
- ISI Program: what would be the type and frequency of the inspection for the HPI/makeup nozzle thermal sleeve under the augmented ISI Program?

Let me know if we can have this telephone conference this week. Also I got your voicemail I'll wait for your 1:30 pm call.

Regards
