Attention: Craig Z. Gordon, Senior Health Physicist

Subject: Radioactive Materials License
Haley & Aldrich, Inc.
Amendment to License No. 06-28529-01

03031720

Dear Mr. Gordon:

In response to your request that Haley & Aldrich remove the 800 Connecticut Blvd., East Hartford, CT site from our license, Haley & Aldrich is in concurrence and wishes to amend our license to that end. In support of our request Haley & Aldrich has notified the landlord that the nuclear density gauges were removed at the time of our office move. Additionally, several areas of the floor and walls in the nuclear gauge storage area were wiped to document that no residual radioactive materials were present (a single wipe was used for all areas sampled). The wipe sample was sent to Troxler Electronics Laboratory in Research Triangle Park, NC and was analyzed for alpha, beta and gamma radiation. In summary, no detectable radiation above wipe media background was detected on the surfaces wiped. A copy of the wipe sample test results are attached for your consideration.

I would also like to thank-you for the insightful discussion we had regarding NRC philosophies, policies and procedures. Unfortunately, reading and digesting regulatory text does not always easily reveal the rationale, guidance or expectations for program implementation that we seek when developing and managing our programs. As I mentioned several times during our discussion, I inherited a pretty complete program from my predecessors. It was good to hear from you that we appear to be on the right track with that program.

If you have any questions, comments or concerns regarding this request, please don't hesitate to call me.

Sincerely yours,
HALEY & ALDRICH, INC.

Peter Falce
Radiation Safety Officer

Scott A. Boston, CIH, CSP

LEAK TEST CERTIFICATE

DEVICE:

Model: 800 CT BLVD **Serial No:** STORAGE CA

LEAK TEST ANALYSIS:

Sample collected on: 10/16/2010
Sample analyzed on: 10/22/2010 1:56:50 PM **Position:** 12
Analyzed by: C. Eftekhari

	ALPHA	BETA-GAMMA
Conversion factor (cpm/Bq)	1.22E+01	1.97E+01
Background measurement (cpm)	1	28
Sample measurement (cpm)	0	24
Activity (Bq)	< MDA	< MDA
Min. Detectable Activity (Bq)	6.2E-01	1.4E+00

This certifies that the leak test results are:

✓ Less than 185 Bq (0.005 uCi)

Greater than 185 Bq (0.005 uCi)

This is to acknowledge the receipt of your letter application dated

12/19/2011, and to inform you that the initial processing which includes an administrative review has been performed.

Amendment (06-28529-01)
There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

Please provide to this office within 30 days of your receipt of this card
