Re: Amendment Request to NRC Material License 13-26340-01

Dear Mr. Herr,

We are requesting an amendment to the above referenced NRC Material License to allow the LaPorte District INDOT training program to be conducted by David W. Schelling. Everything else remains the same.

You gave the LaPorte District several options to correct the lack of nuclear gauge experience with the primary option for the RSO to obtain 8 hours operating the nuclear gauge. David W. Schelling has more than fulfilled that requirement with 10 hours experience at this time. The experience with the nuclear gauge occurred this year on April 15 - 0.5 hour, April 18 - 0.5 hour, July 5 - 0.5 hour, July 6 - 1.0 hour, October 3 - 2.0 hours, October 7 - 1.5 hours, December 7 - 0.5 hour, December 20 - 0.5 hour, December 21 - 0.5 hour and December 28 - 2.5 hours.

Condition 20 should be modified to allow David W. Schelling to conduct the LaPorte District INDOT training program.

Thank you for your consideration of this request.

Sincerely,

David W. Schelling, PE, RSO
LaPorte District Testing Engineer
