SUBJECT			
License No.: 13-01787-01		Control No.: 576156	

SUMMARY

We have conducted a preliminary review your license amendment request dated August 29, 2011, and find that we are unable to continue this action until we have received information regarding the following:

You have requested to add a 10 CFR 35.600 Iridium-192 high dose rate remote afterloader unit authorization for Tae Chung, M.D. Please submit a completed NRC Form 313A (AUS), together with the appropriate preceptor attestations, including documentation that Dr. Chung meets the requirements listed in either 10 CFR 35.690(a) and 35.690 (c), or in 10 CFR 35.690(b)(1), 35.690(b)(2), and 35.690(c).

RESPONSE: The requested NRC Form 313A (AUS) was submitted via facsimile on October 13, 2011. However, the form did not demonstrate that Dr. Chung qualified under either the 10 CFR 35.690(a) or 10 CFR 35.690 (b) pathway. Additional information was requested on November 21, 2011, via a second phone conversation record.

Please submit:

- Completed NRC Form 313A (AUS) for Tae Chung, M.D., as described above

to my attention via either facsimile (630-515-1078), phone (630-829-9892), or as a pdf file attached to an email addressed to sara.forster@nrc.gov. Reference Control No. 576156, listed at the top of this memo, with any additional correspondence, relating to this action. Direct questions to me at (630) 829-9892.

In order for us to proceed with our review of this action, submit the requested information on or before October 21, 2011. Additional information was received via facsimile on October 13, 2011. The received information was insufficient to complete the licensing action. A second phone conversation record was created & transmitted on November 21, 2011, regarding the need for additional documentation of Dr. Chung's training and experience.
