ATTN: Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

**Subject: Alternate Energy Holdings, Inc. (AEHI) Payette Nuclear Site Update**

The purpose of this letter is to update the NRC that AEHI has obtained final local and state approval of its greenfield nuclear plant site near Payette, Idaho.

We anticipate starting the Combined Operating License Application (COL) in the first quarter of 2012 and submitting the application in the third quarter of 2014 with the assistance of Enercon Services Inc.

We plan to select our reactor supplier in 2012 for the Payette site. We will notify NRC of that decision as soon as possible.

If you have any questions or need additional information, please contact Pete Honeysett, Director of Nuclear Projects, [pete@aehipower.com](mailto:pete@aehipower.com)

Respectfully,

Don Gillispie  
Chairman and CEO

cc: Michael Johnson, Director of New Reactors, David Matthews, Director, Division of New Reactor Licensing, NRO; Frank Akstulewicz, Deputy Director, Division of New Reactor Licensing, NRO
