SUBJECT: VIRGIL C. SUMMER NUCLEAR STATION - NRC SECURITY INSPECTION
REPORT 05000395/2011406

Dear Mr. Gatlin:

On December 1, 2011, the U. S. Nuclear Regulatory Commission (NRC) completed a security baseline inspection at your Virgil C. Summer Nuclear Station, Unit 1. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed report documents the inspection results which were discussed with you and other members of your staff during an exit meeting conducted on December 1, 2011.

This inspection examined activities conducted under your license as they relate to security, and compliance with the Commission's rules and regulations, and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of this inspection, one finding of very low significance was identified. The NRC is treating the violation as a non-cited violation (NCV) consistent with Section 2.3.2, of the NRC Enforcement Policy because of the very low safety significance of the violation, and because it was entered into your corrective actions program. If you contest this non-cited violation, you should provide a response within 30 days of the date of this inspection report, with the basis of your denial, to the Nuclear Regulatory Commission, Administrator, Region II; the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-0001; and the NRC Resident Inspector at the V.C. Summer Nuclear Station.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system, ADAMS. ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). However, because of the security-related concerns contained
